

Clownfish

Done? Let it swim!

1. Scan the QR code with your phone.
2. Take a photo of the whole colouring sheet.
3. Good light, and all four corner markers in frame.

Did you know...

- a clownfish is protected by the stinging tentacles of an anemone?
- all clownfish are born male and can later turn into a female?
- a clownfish lives its whole life by the same anemone?
