

Surgeonfish

Done? Let it swim!

1. Scan the QR code with your phone.
2. Take a photo of the whole colouring sheet.
3. Good light, and all four corner markers in frame.

Did you know...

- a surgeonfish has a sharp little blade on its tail to scare off enemies?
- surgeonfish visit cleaning stations where other fish clean them?
- a surgeonfish lives its whole life in the same patch of coral reef?
