

Seahorse

Done? Let it swim!

1. Scan the QR code with your phone.
2. Take a photo of the whole colouring sheet.
3. Good light, and all four corner markers in frame.

Did you know...

- with seahorses it is the male, not the female, that gives birth to the babies?
- seahorses are the only fish that swim upright?
- a seahorse can look in two directions at once with its eyes?
